SPA AND WELLNESS FACILITIES AT ELOUNDA BEACH RESORT 伊罗达海滩度假会所

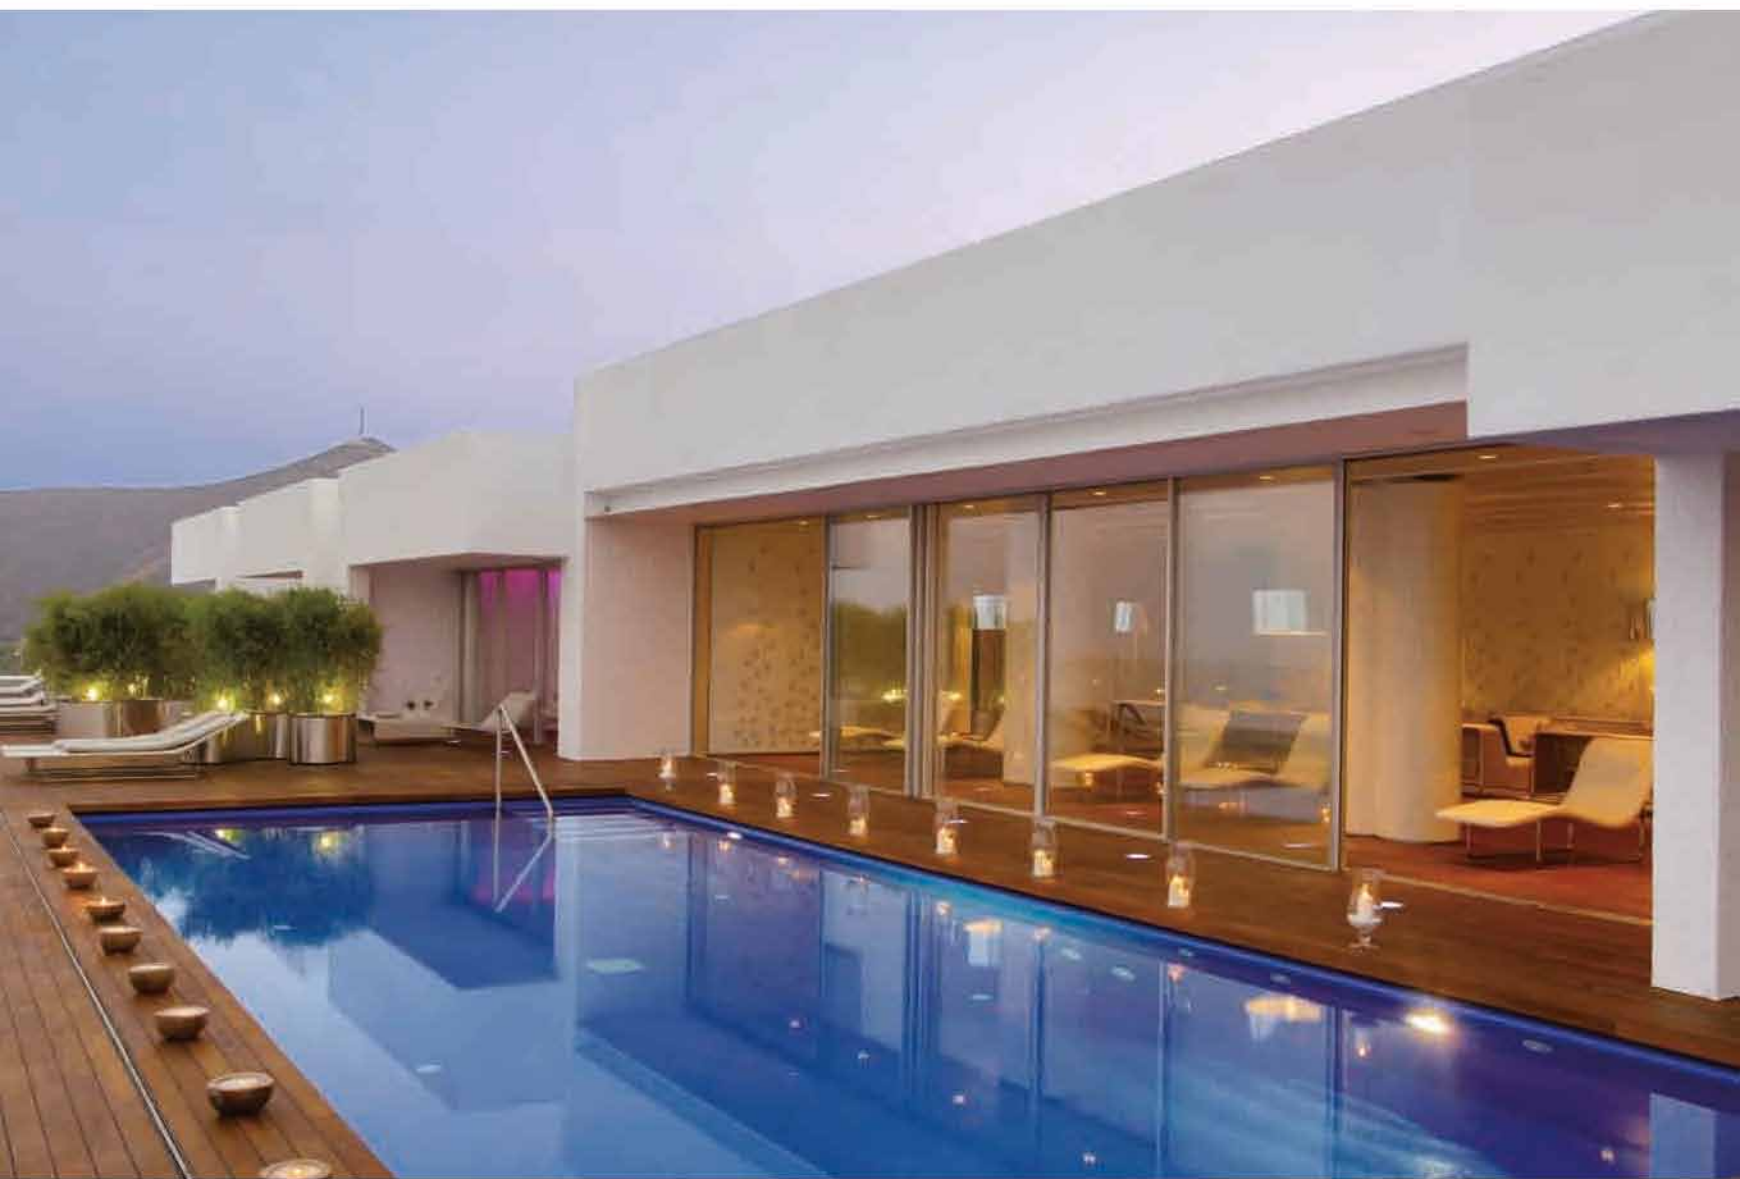

Designer: Davide Macullo

Location: Crete, Greece

Area: 1,400m²

在本案中，融入周围引人注目的景观一直是设计的重点。该项目在确保内部和外部空间视觉的连贯性的同时延伸空间，超出实际分界线，把周围引人注目的自然景观纳入其中。本案非常注重空间给予游客的概念，让游客感觉像是浮在美丽的克里特岛上。用于各种水疗功能的一系列希腊式的“白盒”，不仅使结构达到空间和谐，而且易于被游客理解，能够为游客导航。材料、颜色和质地的选择创造了一种轻盈、清新和纯静的感觉，强调就是人们所期盼的让身心得到放松和疗养的地方。走进二楼接待处，客人可以选择湿润（水基疗养）或美容、按摩和全身疗养。从大的休息区通过玻璃隔断，客人可以享受不间断的外部景观前往全景游泳池，像离开小岛进入了爱琴海……

In the case, the integration of the striking surrounding landscape has been the most focal point of the design. The project is to ensure a visual continuity between the internal and external spaces but moreover, to extend the space beyond its physical boundaries and into this remarkable surrounding natural landscape. Visitors' perception of the spaces is heightened and the feeling is one of 'floating' above this beautiful Cretan setting. The series of Grecian-like 'white boxes' which host the various spa functions afford the structure a spatial harmony and are easily understood and navigated by visitors. The selection of materials, colors and textures creates a sense of lightness and freshness, which emphasizes the expecting place of body and mind getting relaxation and recuperation. On arriving to the second floor reception, guests can choose-humid (water based treatments) or facials, massage and body treatments. From the large lounge area through the glass partition, guests can enjoy uninterrupted views out to the panoramic pool and beyond to the islets and Aegean Sea.
