

Certificate of Participation

Swiss House XXXV Davide Macullo

We hereby certify that the project cited above was entered in the 6th Holcim Awards competition in which 4,742 entries were received. The submission was one of 2,507 entries that met the stringent criteria of the competition and was presented to the respective regional Holcim Awards jury headed by:

- Europe: **Jeannette Kuo**, Switzerland
- North America: **Reed Kroloff**, USA
- Latin America: **Loreta Castro Reguera**, Mexico
- Middle East Africa: **Mariam Kamara**, Niger
- Asia Pacific: **Nirmal Kishnani**, Singapore

The Holcim Foundation for Sustainable Construction would like to congratulate you on this achievement, and thank you for your contribution to promoting sustainable construction.

Prof. Dr. Marilyne Andersen
Head of the Academic
Committee Holcim Foundation

Edward Schwarz
General Manager
Holcim Foundation

The Holcim Awards is the world's most significant competition in sustainable design. It celebrates innovative, future-oriented, and tangible sustainable construction projects and next generation visions from around the globe. Five Target Issues form the basis on which projects are assessed:

- Progress:** Innovation and transferability
- People:** Ethical standards and social inclusion
- Planet:** Resource and environmental performance
- Prosperity:** Economic viability and compatibility
- Place:** Contextual and aesthetic impact

The golden ratio (or golden section) has been considered an example of divine proportion since antiquity. The icon of the Foundation is an icosahedron that stands for the objectives of sustainability in construction: striving for balance and harmony - between today and tomorrow, between resources and consumption, and between needs and opportunities.
